

**Educational and Parent  
Consultants presents:**

---

## ***Book Clubs and Writing Enrichment***

### **Book Clubs** (Ages 4-10)

Being part of a club is always fun. Encourage your child to join a book club facilitated by an educator. Each week, students will be encouraged to read a book that we will discuss. Children who are not yet reading will be read to. Discussions will provide an opportunity for children to engage in public speaking, as well as learn comprehension strategies all in a fun, non-threatening environment. Book Clubs will meet in age-appropriate groups and children will take part in developmentally appropriate literacy based activities.

- Ages 4-5 – Book Buds
- Ages 6-7 – Book Bunch I
- Ages 8-10 – Book Bunch II

### **Writing Enrichment** (Ages 8-10)

Children enjoy writing when it's personal. And what is more personal than our own lives? Children who participate in this enrichment class will have the opportunity to write in a variety of forms including, but not limited to: scrapbooking, memoir writing, journal writing, and poetry. Each week, a fun writing activity will take place with a final product children can take home. Along the way, they just might learn to love writing for fun!
